

World Trend Plus

A unique database that tells you everything you need to know about the global market

Designed to be a single access point for benchmarking and reference data, the CEIC World Trend Plus Database provides robust and in-depth insights into the performance of numerous developed and emerging countries and regions around the globe. Within the database, **Global Economic Monitor (GEM)** and **ASEAN Economic Monitor** offer series of normalized data with extended homogeneous history and detailed methodological notes that allows for quick comparison and analysis of various economic factors in the short and long terms.

The dataset includes key indicators such as **GDP, IPI, FDI, and CPI**. World Trend Plus also offers regionally aggregated data, comprehensive forecasts, **Markit® PMI** headlines, commodities data, and market sentiment indicators.

For more information visit www.ceicdata.com, and request a free trial subscription.

Key Benefits

Enables **in-depth fundamental analysis** across countries and regions through a comprehensive set of standardized benchmarks

Boosts planning with **forecast and sentiment data**, offering the latest outlook on the global economic situation

Provides privileged market data from **Sentix, IFO Institute, Baltic Exchange, and the Commodity Research Bureau**

Offers insights into investment opportunities through comparisons of countries' competitiveness based on **250+ indicators**

Clarifies the complexity of an economy and the interrelated forces that drive competitiveness and economic growth

OTC Derivatives Outstanding Statistics from Bank for International Settlements (BIS) – **more than 1,000 series** in notional amounts outstanding and gross market value for all types of OTC derivatives

Key Elements

Global Economic Monitor

- **100 Global Economic Indicators** on **115+** economies standardised by CEIC analysts
- Series with extended comparable history to facilitate trend analysis
- Indicators include, but not limited to, Non-Performing Loan Ratio, Household Debt, Current Account Balance, Business and Consumer Sentiments
- Newly launched indicators include Tax Revenue, Government Consumption Expenditure, Total Deposits, Core CPI, and others

ASEAN Economic Monitor

- Leverages CEIC's comprehensive Asia coverage to derive AEC, ASEAN-6, ASEAN-5, and CLMV aggregates
- Data compiled for **10 ASEAN member states**
- Indicators include Trade by Country and Commodities, Current Account Balance, Foreign Direct Investment, Labor Productivity, as well as sector indicators such as Agriculture yield and Tourism Receipts

Country and Regional Forecast

- Cover **16 broad regions** and **192+ countries** with 5-year projections
- Key macroeconomic indicator forecasts provided by leading international agencies
- United Nations Population Forecast that covers a total of **233 countries population estimates** and projections to year 2100
- FocusEconomics Consensus Forecast Reports and Excel templates available as an optional upgrade service

Commodities Market Data

- Cover all major commodity prices and price indexes, as well as agricultural commodity supply and demand, with forecasts for the Americas, Europe, MENA, and Asia
- Commodity price indexes from the Baltic Exchange, and Commodity Research Bureau

IHS Markit® Headline PMI

- IHS Markit® Headline Purchasing Managers' Index (Headline PMI) are available

CEIC Leading Indicator

- Proprietary composite leading indicators for 8 regions designed by CEIC Insights to precede the development of major macroeconomic indicators and predict the turning points of the economic cycle

Aggregated Data by Region

- Covers the globe and **16 regions**
- Data on **15 macroeconomic concept categories**
- Extensive collection of data sourced from reliable public and private data agencies

Top Companies Data

- Include comprehensive financial and operational statistics on the top companies in the Non-Asia, Asia Ex-China, and China regions
- Covers **14 sectors** and more than **400 companies**

International Associations

- Include data sourced from the Bank for International Settlements (BIS), International Organization of Motor Vehicle Manufacturers (OICA), Organization of the Petroleum Exporting Countries (OPEC), and United Nations Conference of Trade and Development (UNCTAD) and others
- These datasets offer a clear picture of the industry and enables cross-country comparisons and performance measurement

Country Competitiveness

- A unique dataset of a broad array of competitiveness indicators for **140+ economies**
- The Global Competitiveness Index (GCI) and Information & Communication Technology Networked Readiness Index (NRI) are among those included
- This dataset provides a comprehensive view of the competitiveness landscape in countries around the world

OECD Databases also Available on CEIC's Platform

- **The OECD Main Economic Indicators** database includes a wide range of information for OECD countries and non-member economies starting from 1961, including quarterly national accounts, business surveys, retail sales, etc.
- **The OECD Economic Outlook** database provides historical trends and future projections for a range of economic statistics. These include demand and gross domestic product (GDP), deflators and prices, general government accounts, etc.
- **The OECD Productivity Statistics** database provides an in-depth view of productivity growth trends. The breakdown of contribution to productivity growth by capital services such as ICT equipment and software can increase users' understanding of the drivers of productivity performance.
