

Indonesia

Premium Database

The World's most comprehensive database on the Indonesian economy

With more than **432,000 time series**, the Indonesia Premium Database is the premier source for everything you need to know about the Indonesian economy. The database is the first of its kind and houses an unprecedented number of statistics that can reveal the drivers of the Indonesian economy.

The Indonesia Premium Database provides **hard-to-get data** acquired directly from our exclusive relationships with primary sources in Indonesia. Many of these data series are not available electronically outside of CEIC. More than 60% of the data was originally in Bahasa and has been translated for the use of English-speaking professionals.
